

# WHILE Loop

- Example

```
ACCEPT p_new_order PROMPT 'Enter the order number: '  
ACCEPT p_items -  
    PROMPT 'Enter the number of items in this order: '  
DECLARE  
v_count      NUMBER(2) := 1;  
BEGIN  
    WHILE v_count <= &p_items LOOP  
        INSERT INTO item (ordid, itemid)  
        VALUES (&p_new_order, v_count);  
        v_count := v_count + 1;  
    END LOOP;  
    COMMIT;  
END;  
/
```
